

The figure consists of two vertically stacked line graphs. The top graph has a y-axis labeled '인구' (Population) with values from 0 to 100 in increments of 10, and an x-axis labeled '인구' (Population) with values from 0 to 100 in increments of 10. It contains several curves: a thick blue curve starting at (0, 100) and decreasing; a thin blue curve starting at (0, 80) and decreasing; a black curve starting at (0, 0), peaking at approximately (50, 45), and then decreasing; and a brown curve starting at (0, 0), peaking at approximately (40, 30), and then decreasing. The bottom graph has a y-axis labeled '인구' (Population) with values from 0 to 100 in increments of 10, and an x-axis labeled '인구' (Population) with values from 0 to 100 in increments of 10. It contains three blue curves: a thick blue curve starting at (0, 0) and increasing towards 100; a medium blue curve starting at (0, 0) and increasing towards 100; and a thin blue curve starting at (0, 0) and increasing towards 100.
