

The top graph shows the relationship between the number of people (人数) on the y-axis and the number of days (日数) on the x-axis. The y-axis ranges from 0 to 100 in increments of 10. The x-axis ranges from 0 to 100 in increments of 10. A series of curves are plotted, each representing a different type of work. The curves start at a constant value on the y-axis and then decrease as the number of days increases. The area under the curves is shaded in light blue.

The bottom graph shows the relationship between the number of people (人数) on the y-axis and the number of days (日数) on the x-axis. The y-axis ranges from 0 to 100 in increments of 10. The x-axis ranges from 0 to 100 in increments of 10. A series of curves are plotted, each representing a different type of work. The curves start at a constant value on the y-axis and then increase as the number of days increases. The area under the curves is shaded in light blue.
