

The figure consists of two vertically stacked graphs. Both graphs have a horizontal axis labeled '인원 수' (Number of people) and a vertical axis labeled '인원 수' (Number of people). The horizontal axis has tick marks at 1, 2, 3, 4, 5, 6, 7, 8, 9, 10. The vertical axis has tick marks at 1, 2, 3, 4, 5, 6, 7, 8, 9, 10. The top graph shows several curves representing different values of a parameter. The curves are labeled with values: 100%, 90%, 80%, 70%, 60%, 50%, 40%, 30%, 20%, 10%, 0%. The curves show that as the number of people increases, the number of people who are not in the same group also increases, but at a decreasing rate. The bottom graph shows several curves representing different values of a parameter. The curves are labeled with values: 100%, 90%, 80%, 70%, 60%, 50%, 40%, 30%, 20%, 10%, 0%. The curves show that as the number of people increases, the number of people who are not in the same group also increases, but at a decreasing rate.
