

The top graph shows the relationship between the number of people (x-axis, 0 to 100) and the number of people who are not in the majority (y-axis, 0 to 100). The blue curves represent the number of people who are not in the majority, and the black curves represent the number of people who are in the majority. The blue curves are concave down, and the black curves are concave up. The blue curves start at (0, 100) and end at (100, 0). The black curves start at (0, 0) and end at (100, 100). The blue curves are labeled 100%, 80%, 60%, 40%, 20%, and 0%. The black curves are labeled 0%, 20%, 40%, 60%, 80%, and 100%.

The bottom graph shows the relationship between the number of people (x-axis, 0 to 100) and the number of people who are not in the majority (y-axis, 0 to 100). The blue curves represent the number of people who are not in the majority. The curves are concave down and start at (0, 0). The curves are labeled 100%, 80%, 60%, 40%, 20%, and 0%.
