

The figure consists of two vertically aligned graphs. The top graph has a vertical axis labeled 'K' (capital stock) and a horizontal axis labeled 'L' (labor force). It shows three downward-sloping curves, with the middle one being the steepest. The bottom graph has a vertical axis labeled 'K' (capital stock) and a horizontal axis labeled 'L' (labor force). It shows three upward-sloping curves, with the middle one being the steepest. The two graphs are connected by a horizontal line at the top of the bottom graph's vertical axis.
