The figure consists of two vertically aligned graphs sharing a common horizontal axis representing the quantity of good X (0 to 100).

Top Graph: Production Possibility Frontiers (PPFs)

- Vertical Axis:** Quantity of good Y (0 to 100).
- Korea's PPF (Left Line):** A straight line from (0, 100) to (100, 0).
- Japan's PPF (Right Line):** A straight line from (0, 50) to (100, 0).
- Intersection:** The two PPFs intersect at (50, 50).

Bottom Graph: Indifference Curves

- Vertical Axis:** Quantity of good Y (0 to 100).
- Korea's Indifference Curve (Upper Curve):** A concave curve passing through (0, 50) and (100, 0).
- Japan's Indifference Curve (Lower Curve):** A concave curve passing through (0, 25) and (100, 0).
- Intersection:** The two indifference curves intersect at (50, 25).
