

The figure consists of two vertically stacked graphs, both sharing the same x-axis labeled '인원' (Personnel) with values 1, 2, 3, 4, 5, 6, 7, 8, 9, 10.

Top Graph: The y-axis is labeled '인원' (Personnel) with values 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200. It displays a series of 10 downward-sloping, concave curves. The topmost curve starts at (1, 200) and ends at (10, 100). The bottommost curve starts at (1, 100) and ends at (10, 50). The area between these two curves is shaded light blue.

Bottom Graph: The y-axis is labeled '인원' (Personnel) with values 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200. It displays a series of 10 upward-sloping, concave curves. The topmost curve starts at (1, 100) and ends at (10, 200). The bottommost curve starts at (1, 50) and ends at (10, 100). The area between these two curves is shaded light blue.
