

The top graph shows the relationship between the number of people (personnel) and the number of vehicles (vehicles) for a single vehicle type. The y-axis represents the number of people (personnel) and the x-axis represents the number of vehicles (vehicles). The graph shows a series of curves that decrease as the number of vehicles increases, indicating that the number of people required decreases as the number of vehicles increases.

The bottom graph shows the relationship between the number of people (personnel) and the number of vehicles (vehicles) for multiple vehicle types. The y-axis represents the number of people (personnel) and the x-axis represents the number of vehicles (vehicles). The graph shows a series of curves that decrease as the number of vehicles increases, indicating that the number of people required decreases as the number of vehicles increases.
