

The figure consists of two vertically stacked graphs. Both graphs have '인원' (Personnel) on the vertical axis and '일' (Day) on the horizontal axis. The vertical axis is divided into segments labeled E, F, G, H, and I. The horizontal axis is divided into segments labeled I, II, III, IV, V, VI, VII, VIII, IX, X, XI, XII.

The top graph shows a shaded area representing the range of possible consumption levels. The area is bounded by a horizontal line at the top (level H) and a diagonal line sloping downwards from left to right. The shaded area is filled with a light blue color.

The bottom graph shows a shaded area representing the range of possible consumption levels. The area is bounded by a horizontal line at the top (level H) and a diagonal line sloping downwards from left to right. The shaded area is filled with a light blue color.
