

Figure 1 consists of two graphs. The top graph shows the relationship between the number of people (Y-axis) and the number of people who are not in the same group (X-axis). The Y-axis is labeled '인원' (Person) and ranges from 0 to 100. The X-axis is labeled '인원' (Person) and ranges from 0 to 100. The graph shows several curves representing different group sizes. The curves are labeled with the number of people in the group: 100, 90, 80, 70, 60, 50, 40, 30, 20, 10. The curves show that as the number of people in the group increases, the number of people who are not in the same group decreases. The bottom graph shows the relationship between the number of people (Y-axis) and the number of people who are not in the same group (X-axis). The Y-axis is labeled '인원' (Person) and ranges from 0 to 100. The X-axis is labeled '인원' (Person) and ranges from 0 to 100. The graph shows several curves representing different group sizes. The curves are labeled with the number of people in the group: 100, 90, 80, 70, 60, 50, 40, 30, 20, 10. The curves show that as the number of people in the group increases, the number of people who are not in the same group decreases.
