

The top graph shows distance (km) on the y-axis (0 to 100) and time (h) on the x-axis (0 to 0.8). A shaded blue area represents the range of possible distances. The area is bounded by a horizontal line at 100 km from 0 to 0.4 hours, and a diagonal line from (0.4, 100) to (0.8, 0). The lower boundary is a series of curves starting from the y-axis and ending at the x-axis.

The bottom graph shows time (h) on the y-axis (0 to 0.8) and distance (km) on the x-axis (0 to 100). A shaded blue area represents the range of possible times. The area is bounded by a horizontal line at 0.4 hours from 0 to 100 km, and a diagonal line from (0, 0.4) to (100, 0). The upper boundary is a series of curves starting from the y-axis and ending at the x-axis.
