

Figure 1 consists of two graphs. The top graph shows a decreasing trend, and the bottom graph shows an increasing trend. Both graphs have '人数' (Number of people) on the vertical axis and '時間' (Time) on the horizontal axis. The top graph has a vertical axis labeled '人数' with values from 0 to 100. The bottom graph has a vertical axis labeled '人数' with values from 0 to 100. The horizontal axis for both graphs is labeled '時間' with values from 0 to 100. The top graph shows a decreasing trend, and the bottom graph shows an increasing trend. Both graphs have a shaded area representing a range of values.
