

Figure 1 consists of two graphs. The top graph shows the relationship between the number of people (人数) on the y-axis and time (時間) on the x-axis. The y-axis is labeled with '人数' and has tick marks for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. The x-axis is labeled with '時間' and has tick marks for 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. The graph shows a series of curves that start at a high value on the y-axis and decrease as time increases. The curves are labeled with '人数' and '時間'.

The bottom graph shows the relationship between the number of people (人数) on the y-axis and time (時間) on the x-axis. The y-axis is labeled with '人数' and has tick marks for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. The x-axis is labeled with '時間' and has tick marks for 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. The graph shows a series of curves that start at a low value on the y-axis and increase as time increases. The curves are labeled with '人数' and '時間'.
