

The figure consists of two contour plots. The top plot shows the relationship between '종교' (Religion) on the y-axis and '기타' (Other) on the x-axis. The y-axis ranges from 100 to 1000, and the x-axis ranges from 100 to 1000. The contours represent levels of a third variable, with values increasing from the bottom-left to the top-right.
