

The figure consists of two vertically stacked graphs. Both graphs have '인원' (Personnel) on the vertical axis and '인원' (Personnel) on the horizontal axis. The top graph shows a series of curves that start at a high value on the vertical axis and decrease as they move to the right. The bottom graph shows a series of curves that start at a low value on the vertical axis and increase as they move to the right. Both graphs include a shaded region representing a range of values.
