

The top graph shows the relationship between the number of people (personnel) and the number of people (personnel) for a given number of people (personnel). The y-axis represents the number of people (personnel) and the x-axis represents the number of people (personnel). The graph shows a series of curves that represent the relationship between the number of people (personnel) and the number of people (personnel) for a given number of people (personnel). The curves are labeled with values from 100 to 1000, representing the number of people (personnel).

The bottom graph shows the relationship between the number of people (personnel) and the number of people (personnel) for a given number of people (personnel). The y-axis represents the number of people (personnel) and the x-axis represents the number of people (personnel). The graph shows a series of curves that represent the relationship between the number of people (personnel) and the number of people (personnel) for a given number of people (personnel). The curves are labeled with values from 100 to 1000, representing the number of people (personnel).
