

The figure consists of two vertically stacked graphs. Both graphs have a vertical axis labeled '인원수' (Number of People) and a horizontal axis labeled '인원수' (Number of People). The vertical axis is divided into 10 segments, labeled from top to bottom: E10, E9, E8, E7, E6, E5, E4, E3, E2, E1. The horizontal axis is divided into 10 segments, labeled from left to right: F1, F2, F3, F4, F5, F6, F7, F8, F9, F10. The top graph shows a series of blue lines that are concave down, starting from the left and ending at the right. The bottom graph shows a series of blue lines that are concave up, starting from the left and ending at the right. The area between the lines in both graphs is shaded light blue.
