

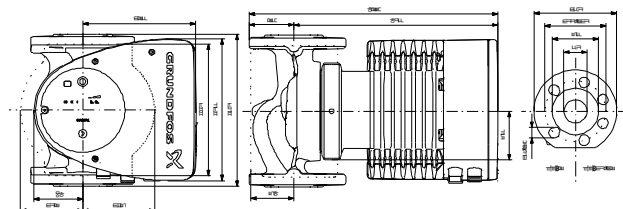

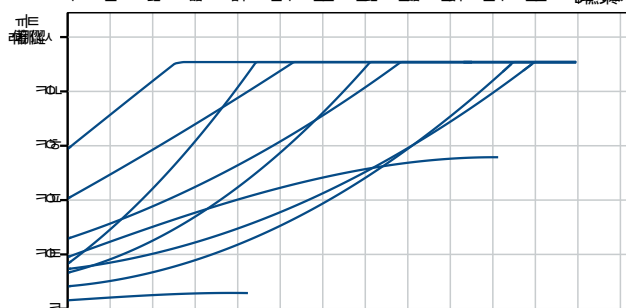

Figure 1 is a line graph showing the number of people (Y-axis, 0 to 25) versus time (X-axis, I to XX). The graph illustrates the population dynamics of a community, showing a peak around time VII and a subsequent decline. The legend indicates that the lines represent different age groups: 0-14 (blue), 15-64 (green), 65-74 (red), 75-84 (purple), 85-94 (brown), and 95-100 (pink).
