

The top graph shows the relationship between time (시간) and cost (비용) for a project. The vertical axis represents cost (비용) and the horizontal axis represents time (시간). A shaded blue region represents the feasible area, bounded by a horizontal line at the top and a diagonal line sloping downwards from left to right. Several curved lines are plotted within this region, representing different project paths or schedules.

The bottom graph shows the relationship between time (시간) and cost (비용) for a project. The vertical axis represents cost (비용) and the horizontal axis represents time (시간).
