

The top graph shows the relationship between the number of people (personnel) and the number of days (time) for a project. The y-axis represents the number of people (personnel) and the x-axis represents the number of days (time). The graph shows a series of curves that decrease as the number of days increases, indicating that the number of people required decreases over time. The curves are labeled with values from 1 to 10, representing the number of people.

The bottom graph shows the relationship between the number of people (personnel) and the number of days (time) for a project.
