

The figure consists of two vertically stacked graphs. Both graphs have a vertical axis labeled '인구' (Population) and a horizontal axis labeled '인구' (Population). The top graph shows a series of downward-sloping curves, while the bottom graph shows a series of upward-sloping curves. Both graphs are filled with a light blue color, and the curves are drawn in a darker blue. The top graph's curves are labeled with values from 1 to 10 on the vertical axis, and the bottom graph's curves are labeled with values from 1 to 10 on the vertical axis. The horizontal axis for both graphs is labeled with values from 1 to 10.
