

The top graph shows the relationship between the number of people (人数) on the y-axis and the number of times (回数) on the x-axis. The y-axis is labeled with levels: LC, EC, BC, IC, OC, SC, LC, UC, UC. The x-axis is labeled with levels: LC, EC, BC, IC, OC, SC, LC, UC, UC. The graph shows a series of curves that generally decrease as the number of times increases, with a shaded area representing a range of values.

The bottom graph shows the relationship between the number of people (人数) on the y-axis and the number of times (回数) on the x-axis. The y-axis is labeled with levels: LC, EC, BC, IC, OC, SC, LC, UC, UC. The x-axis is labeled with levels: LC, EC, BC, IC, OC, SC, LC, UC, UC. The graph shows a series of curves that generally increase as the number of times increases, with a shaded area representing a range of values.
