

The top graph shows the relationship between the number of people (人数) and the number of people who are not people (非人). The x-axis represents the number of people (人数) from 0 to 100, and the y-axis represents the number of people who are not people (非人) from 0 to 100. The graph shows a curve that starts at (0, 100) and ends at (100, 0), representing the equation $y = 100 - x$.

The bottom graph shows the relationship between the number of people (人数) and the number of people who are not people (非人). The x-axis represents the number of people (人数) from 0 to 100, and the y-axis represents the number of people who are not people (非人) from 0 to 100. The graph shows a curve that starts at (0, 0) and ends at (100, 100), representing the equation $y = x$.
