

伊寒堂^{初正} | 倬奇^然堂^{初徵}

[illegible]

Figure 1 is a line graph titled "人数と人数の関係" (Relationship between Number of People and Number of People). The vertical axis (Y-axis) is labeled "人数" (Number of People) and ranges from 0 to 100. The horizontal axis (X-axis) is labeled "人数" (Number of People) and ranges from 0 to 100. The graph displays several curves representing different levels of the number of people. The curves are labeled with numbers 1 through 10, corresponding to the legend. The curves show that as the number of people increases, the number of people also increases, but the rate of increase varies depending on the level. The curves are generally concave down, indicating that the rate of increase decreases as the number of people increases.
