

Figure 1 is a line graph showing the relationship between the number of people (人数) on the y-axis and the number of days (日数) on the x-axis. The y-axis ranges from 0 to 1000 in increments of 100. The x-axis ranges from 0 to 10 in increments of 1. Three curves are plotted: a top curve labeled 'L800', a middle curve labeled 'L500', and a bottom curve labeled 'L200'. All curves start at (0, 1000) and decrease as the number of days increases. The L800 curve is the steepest, followed by L500, and then L200.
