

Figure 1 is a line graph showing the relationship between the number of people (人数) and the number of people (人数) for different types of people (人種). The graph shows four curves: 1. 1人種 (1 person type), 2. 2人種 (2 person types), 3. 3人種 (3 person types), and 4. 4人種 (4 person types). The curves show that as the number of people increases, the number of people also increases, but the rate of increase decreases as the number of people increases.
