

Figure 1 consists of two line graphs. The top graph has '人員' (Personnel) on the vertical axis and '時間' (Time) on the horizontal axis. It shows several curves: one starts at a high value and decreases; another starts at a low value and increases; a third starts at a low value, increases to a peak, and then decreases; and others show various combinations of increasing and decreasing trends. The bottom graph has '時間' (Time) on the vertical axis and '人員' (Personnel) on the horizontal axis. It shows multiple curves that generally increase from left to right, with some curves leveling off at higher personnel values.
