

[illegible]

Figure 1 is a line graph showing the relationship between the number of people (人数) and the number of people (人数) for different types of people (人). The graph plots five curves: 1. 1人 (1 person), 2. 2人 (2 people), 3. 3人 (3 people), 4. 4人 (4 people), and 5. 5人 (5 people). The curves show that the number of people (人数) increases as the number of people (人数) increases, with the rate of increase slowing down as the number of people (人数) increases.
