

The top graph shows the relationship between the number of people (x-axis) and the number of people who are not people (y-axis). The x-axis is labeled '사람의 수' (Number of people) and ranges from 0 to 100. The y-axis is labeled '사람이 아닌 사람의 수' (Number of people who are not people) and ranges from 0 to 100. The graph shows a blue curve that starts at (0, 100) and decreases to (100, 0). A black curve starts at (0, 0), increases to a peak at (50, 50), and then decreases to (100, 0). The two curves intersect at (50, 50).

The bottom graph shows the relationship between the number of people (x-axis) and the number of people who are not people (y-axis). The x-axis is labeled '사람의 수' (Number of people) and ranges from 0 to 100. The y-axis is labeled '사람이 아닌 사람의 수' (Number of people who are not people) and ranges from 0 to 100. The graph shows a blue curve that starts at (0, 100) and decreases to (100, 0). A black curve starts at (0, 0), increases to a peak at (50, 50), and then decreases to (100, 0). The two curves intersect at (50, 50).
