

The top graph shows the relationship between the number of people (인원) on the y-axis and the number of days (일) on the x-axis. The y-axis is labeled with '인원' and has tick marks for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. The x-axis is labeled with '일' and has tick marks for 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. A series of blue curves are plotted, each representing a different number of people. The curves start at a high value on the y-axis and decrease as the number of days increases. The area under the curves is shaded in light blue.

The bottom graph shows the relationship between the number of people (인원) on the y-axis and the number of days (일) on the x-axis. The y-axis is labeled with '인원' and has tick marks for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. The x-axis is labeled with '일' and has tick marks for 1, 2, 3, 4, 5, 6, 7, 8, 9, and 10. A series of blue curves are plotted, each representing a different number of people. The curves start at a low value on the y-axis and increase as the number of days increases. The area under the curves is shaded in light blue.
