

The top graph shows the relationship between the number of people (인원) and the number of vehicles (차량) for different vehicle types. The y-axis represents the number of people (인원) from 0 to 100, and the x-axis represents the number of vehicles (차량) from 0 to 100. The shaded region represents the feasible area for different vehicle types. The curves represent the relationship between the number of people and the number of vehicles for different vehicle types.

The bottom graph shows the relationship between the number of vehicles (차량) and the number of people (인원) for different vehicle types. The y-axis represents the number of vehicles (차량) from 0 to 100, and the x-axis represents the number of people (인원) from 0 to 100. The shaded region represents the feasible area for different vehicle types. The curves represent the relationship between the number of vehicles and the number of people for different vehicle types.
