

The figure consists of two contour plots. The top plot shows a response variable (Y-axis) ranging from 70 to 100, with a shaded region indicating a specific range. The bottom plot shows a response variable (Y-axis) ranging from 70 to 100, with a shaded region indicating a specific range. Both plots have X-axes with labels K, E, II, G, LL, LC, DE, G, H, HC.
