

Figure 1 consists of two graphs illustrating the relationship between the number of people (人数) and time (時間).

The top graph shows a decreasing trend. The y-axis is labeled "人数" (Number of people) and ranges from 0 to 100. The x-axis is labeled "時間" (Time) and ranges from 0 to 100. A shaded region represents the area under a curve that starts at (0, 100) and decreases to (100, 0). Multiple blue curves are plotted within this region, representing different scenarios or parameters.

The bottom graph shows an increasing trend. The y-axis is labeled "人数" (Number of people) and ranges from 0 to 100. The x-axis is labeled "時間" (Time) and ranges from 0 to 100. A shaded region represents the area under a curve that starts at (0, 0) and increases to (100, 100). Multiple blue curves are plotted within this region, representing different scenarios or parameters.
