

The figure consists of two graphs. The top graph has '人数' (Number of People) on the vertical axis and '時間' (Time) on the horizontal axis. The vertical axis is labeled with values from 0 to 100 in increments of 10. The horizontal axis is labeled with values from 0 to 100 in increments of 10. A series of blue curves are plotted, all starting at (0, 100) and decreasing as time increases. The curves are concave down, and the area between them is shaded light blue. The bottom graph has '人数' (Number of People) on the vertical axis and '時間' (Time) on the horizontal axis. The vertical axis is labeled with values from 0 to 100 in increments of 10. The horizontal axis is labeled with values from 0 to 100 in increments of 10. A series of blue curves are plotted, all starting at (0, 0) and increasing as time increases. The curves are concave up, and the area between them is shaded light blue.
